SCHOOL NOTES.

(Submitted by Students.)

Ruth Orr is back in school after three weeks' illness.

Helen Kramper is the possessor of a new bicycle, which she rides to school.

The whole school laments the absence of Geraldine Heikes on account of her sickness. We are glad to hear that her condition is not so critical as at first thought.

Ethel Waddell has been absent on account of sickness for more than a week.

Recently some spelling tests were sent out by the educational department at Wayne. They were given in our school and the results have just been returned. We were up with the average of other schools of northeastern Nebraska, or up to the standard in all grades except the eighth.

A school exhibit day will be held Friday, May 26. Exhibits of the work of the school year will be on display in the large room up stairs. We earnestly invite everyone to come and see these products and visit the rooms during the afternoon of that day. Further announcement will be made next week.

The third annual field meet for the schools of Dixon and Dakota counties will be held at Dakota City, Saturday, May 20. The program will begin at 9:30 a. m., as per program posted later. The details of the program will be worked out later. An admission fee will be charged. The Ladies Aid society will serve dinner on the courthouse lawn. Everyone should aid in any possible way to make the day a success. It is a big day for the schools and should be a big day for Dakota City.

The play and basket social was a success beyond expectations. Thanks is due to the school girls and the public. Thirty boxes were sold at an average of one dollar each, and the total receipts of the evening were \$38.85. We appreciate greatly the effort put forth on the part of some of the parents to make the evening successful and pleasant. Surely there is no greater service you can render mankind than to make of your children what they ought to be, and you can do this best by being a vital factor in their social life.

Two games remain to be played before field meet at this writing. South Sioux City will play with us here at 3:30 p. m. Tuesday. We expect to play at Ponca Wednesday at 4 p. m. Another game was lost when we played Ponca last Thursday. It will be necessary for our boys to win the next two games in order to insure a place in the field day schedule. A return game with Walthill and a game with the Boy Scouts is anticipated after the field meet.

The last regular teachers' examination of the school year will be held this Friday and Saturday. We cannot urge parents too strongly to aid us in seeing that your children take these examinations. It is impossible to receive credit from the school for the subjects taken unless credits are earned by state examinations. The fact that field day was placed for this time was unfortunate for us but should keep only a few from taking the subjects now prepared for. The examination can never be taken again so well.

We failed to acknowledge that a new sectional bookcase was received by the high school a few weeks ago.

There was a small wreck of the Burlington local freight at the bridge in the Phil Renz field. The Hugo Players, who were on their way to Walthill to play an engagement, were delayed until 3 o'clock in the afternoon. A part or all of them came back to Homer to get their lunch.

The Hugo players played to three pretty fair houses last week. Saturday night was very wet, so there was only half a tent full. If it had been a nice night there would have been standing room only. St. Elmo was the play and was very much enjoyed by those who braved the storm to go. They go from here to Walthill, then to Rosalie, Lyons, Oakland, Herman, and Blair, returning in the fall to make this their headquarters. They gave a nice, clean show and we were very much pleased to hear them call down some smart Alekx who tried to make it disagreeable to every one near them.

A FIENDISH PROPOSAL

The following extract is from a speech of one of the officers of the Ohio State Liquor league:

"It will appear from these facts, gentlemen, that the success of our business is dependent largely upon the creation of an appetite for drink. Men who drink liquor, like others, will die, and if there is no new appetite created our counters will be empty as will be our money drawers. Our children will go hungry, or we must change our business to something more remunerative.

"The open field for the creation of this appetite is among the boys. After men are grown and their habits are formed they rarely change in this regard. It will be needful, therefore, that missionary work be done among the boys, and I make the suggestion, that nickels expended in treats to the boys now will return in dollars to your tills after the appetites have been formed. Above all things, create appetites."
